

How do I get a budget price?

Deck Area

$$\underline{A} \ 9 \ \times \ \underline{B} \ 16 = 144 \text{ SF}$$

Perimeter detailing

Coving Drip

$$\underline{(16+4)} + \underline{(16+9+5)} = 50 \text{ Lineal}$$

Budgeting

Post	2 X \$ 20.00 =	\$ 40.00
Square Feet	144 X \$ 8.00 =	\$ 1152.00 *
Perimeter	50 X \$ 10.00 =	\$ 500.00
Drains	1 x \$ 150.00 =	\$ 150.00
Door removal & installation	1 X \$ 350.00 =	\$ 350.00
		\$ 2192.00

* \$ 300.00 minimum

Note:

This template is not meant to establish market pricing but is provided as a tool for budgeting a simple deck. Job location, time year, job access, existing deck surface and siding are some of the additional factors incorporated into the final deck price. For an actual quote please contact your local trained & authorized Duradek Installer. (Please understand that currently Duradek has the only ongoing accredited waterproof vinyl Architectural Education and installation training program available in the Northwest). An Installer list may be found online at duradek.com or by calling us at Duradek NW.
