Powder Coated
Railing & Fencing Systems for
Residential & Commercial
Applications

in partnership with Ultra-tec®

Cable Railing System

**A Contemporary Railing System That
Combines Minimum View Obstruction
With Maximum Style**

- **Innovative Design:** cleverly designed Invisiware® hardware is hidden within the posts.
- **Durable:** made with 316 stainless steel, both cables and hardware have excellent resistance to atmospheric conditions.
- **Low Maintenance:** Durarail's powder-coated aluminum top rails and posts provide the ultimate framework for your railing system that will not peel, flake or blister as it ages - no need for sanding, staining or painting!
- **Variety:** cables available in 1/8", 3/16" or 1/4" diameters and your choice of 5 standard Durarail Top Rail profiles.

The Stainless Steel Cables allow airflow through the deck and provide excellent resistance to the elements for an attractive, low maintenance railing solution with a sleek, clean and modern look.

Manufactured in
North America
