Applications

Premium Wood Grain Finish

**Enjoy The Rich,
Beautiful Look
of Real Wood**

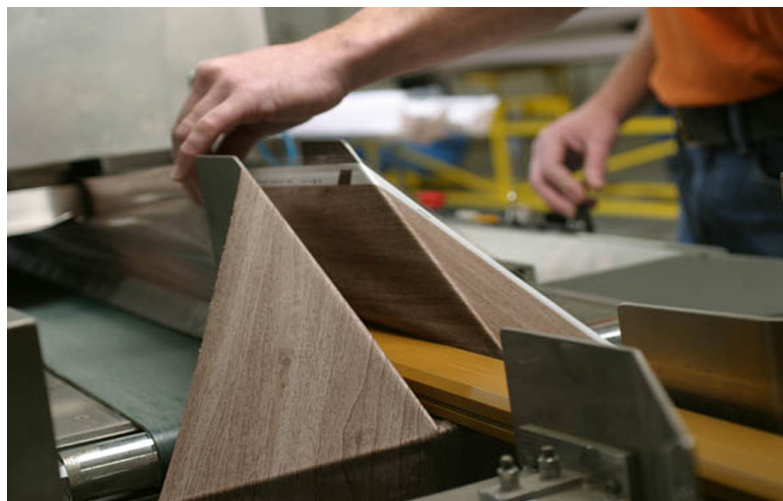

**....With the Low
Maintenance and
Durability of
Aluminum!**

Duradek is proud to announce that we are now offering a wide variety of authentic looking wood finishes on lineal materials, such as Top Rail, Bottom Rail and Post material.

Available in 22 different wood grains, this product is AAMA 2604/2605 certified.

Incorporating a wood finish adds an elegance and sophistication to the interior or exterior of any home.

The natural wood grain looks so realistic that it is regularly mistaken for the real thing but has the added advantages of an aluminum railing system. No more concerns about wood rotting, fading or the constant upkeep of re-staining or re-painting. This product is durable, UV Resistant and virtually maintenance free.

As an added benefit, using this product rather than real wood contributes to the conservation of our forests making this a truly 'GREEN' product.

Manufactured in
North America
